

Pancake/Compensation valve for SIDEL Serie 2 and Universal 1 V3VS2CVA

1. Description

Pancake/Compensation valve type 2636 for Sidel Serie 2 and Universal first generation.

Replacement 1-to-1. Original Sidel valve n°011 234 297 01.

2. New construction

- Synthetic piston formed at high temperature. Proven technology
- Lifetime warranted : 25 Mo cycles / 3 years
- 1-to-1 replacement for the original valves from 1998 to 2006
- Pilot and maintenance kit available
- Working pressure : 18...40 bar
- Electrical data : 24 V DC / 12 W
- Very short response time constant during all the lifetime of the valve :
Ton = 16 ms ± 1.5 ms / Toff = 10 ms ± 4.0 ms

3. Features

- Extended lifetime by reducing the number of components
- High reliability throughout the lifetime of the valve
- Less frictions thanks to improved dynamic seals
- Pilot with high repeatability and reproducibility
- All synthetic moving parts are guaranteed FDA compliant
- Easy and fast replacement of the spare parts
- Maintenance kits available

4. Earnings

- Reduction in handling costs
- Increased productivity
- Less attrition on components
- Improving the quality of the bottle production

5. Picture & Dimensions
